

Thank you for helping capture our community! We show a few highlight photos on wakenyatbay.ca/gallery and link to your album for the rest. **We look through every photo in the album before we link to it.**

1 Pick your best shots

Choose your clearest photos from the event. Your 10 to 30 best is perfect. Leave out anyone who said no to photos.

2 Make a Google Photos album

- Open the **Google Photos** app (or photos.google.com).
- Select the photos from the event.
- Tap + (**Add to**) → **Album** → **New album**.
- Name it with the event and date, e.g. "*Madaraka Day 2026 – Thunder Bay*".

3 Get a link to share

- Open the album and tap **Share** → **Create link**.
- Make sure anyone with the link can view it. Otherwise people will hit a Google sign-in page.
- Copy the link.

4 Send it to us

Email the link to info@wakenyatbay.ca with:

- The event name, date and place
- Your name, and whether you'd like to be credited by name

Please **don't add photos to the album after you send the link**. If you have more, make a new album and send that link too, so we can check them first.

⚠ Photos and consent

- Only send photos where the people in them know they may be shown on the website and are okay with it.
- **Children:** only send photos of children if a parent or guardian has said yes.
- **Want a photo taken down?** Anyone can ask at info@wakenyatbay.ca or wakenyatbay.ca/about/contact. We'll remove it from our site and stop linking to the album until it's fixed.

By sending us your link, you confirm you took these photos or have the photographer's OK, and you agree that we can show them on wakenyatbay.ca, with your name if you'd like.

Asante sana! 🇰🇪 | Karibu nyumbani

Wakenyatbay is volunteer-run. Version 2 · October 2026
